Clicktronic High Performance Adapter

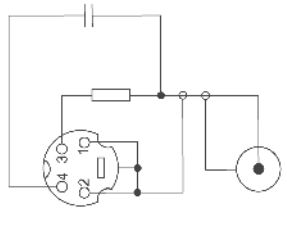

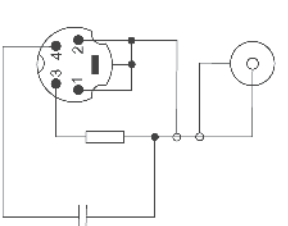

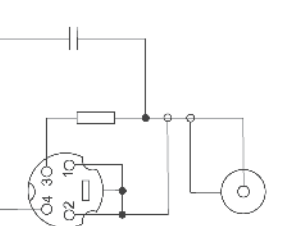

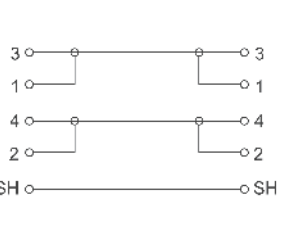

Mit den S-VHS/Cinch Adaptern von clicktronic können alle Geräte, die nicht über einen S-VHS Ausgangskanal verfügen, dennoch ohne Qualitätsverluste an einen S-VHS-Eingang des Wiedergabegerätes angeschlossen werden. Hierbei bewirkt ein integrierter elektronischer Schaltkreis, dass das Y und C Signal vom Videosignal separiert und die Übertragungsqualität von S-VHS erreicht wird. Der Test macht den Unterschied deutlich: die Adapter von clicktronic liefern das perfekte Bild.

With the S-VHS/RCA adaptors of clicktronic all devices not provided with a S-VHS output channel can anyhow be connected to a S-VHS equipped output device. While doing this, an integrated electronic action circuit causes the Y and C signal to be separated from the video signal and reaches the transmission status of S-VHS. The test demonstrates the difference clearly: the adaptors of clicktronic deliver the perfect picture.
